Course Description:

This class is an introduction to studio fundamentals for non-art majors. It focuses on 2-dimensional art and the development of the picture plane as a window to illusory space and as a self-referential domain. Although the course is listed as a “lecture” class, students will be making art and having studio time. Projects will be technically, formally, and conceptually driven and will help students establish a basic vocabulary to address their own work, the work of other students, and work from the fine art world. An overview of specific art historical shifts will provide a contextual understanding of issues that inform the process and intent of art making, past and present.

* Important: It is in your best interest to read the entire syllabus so that you are fully informed about this course policy, and what is expected of you as a student in my class.

This class fulfills a General Education Core requirement for Arts.
Core requirements help ensure that students become acquainted with the broad range of intellectual domains that contribute to a liberal education. By experiencing the subject matter and ways of knowing in a variety of fields, students will be better able to synthesize new knowledge, respond to fresh challenges, and meet the demands of a complex world.

Arts goal:
Courses aim to achieve a majority of the following learning outcomes: students will be able to identify and analyze the formal elements of a particular art form using vocabulary appropriate to that form; demonstrate an understanding of the relationship between artistic technique and the expression of a work’s underlying concept; analyze cultural productions using standards appropriate to the form and cultural context; analyze and interpret material or performance culture in its social, historical, and personal contexts; and engage in the artistic process, including conception, creation, and ongoing critical analysis.

Course Methods:
• Class discussions relating to visual perception, aesthetics and some relative art history, etc.
• Reading & writing assignments and discussion of the material, Art/Artists films, and visual aids.
• In class art practice work, assignments and projects. (Involves studio time)
• Some quizzes based on course topics covered over semester.
• Class critiques: discuss student work as a group.
• Written Formal analysis/review paper of an artwork, and or art exhibits.
• Research an artist and share with group his or her work.

General Expectations:
• Class attendance is crucial, as well as class participation and supplies required.
• Class work and homework turned in on time.
• Drawing terms quiz and required field trips.
• Student participation: critiques and performance in class.
• Cell phones must not be used while in class. Turn off or ringer off!
• No headphones or ear buds. (During some studio class time I will allow them as long as you can hear me.)
• Projects are graded on, end result/artwork, effort, craftsmanship, process, critique.

• Always put your class, for ex. AVT-103-004, your name, date, assignment title on back of handed in work. Important: Students are responsible for cleaning up their work area including tables, and supplies before leaving class. Since the studio is a shared room with other faculty and students, clean up is not an option it is mandatory.

Grading Information: Grades are determined by class assignments, tests, quizzes, written assignments, “general expectations” criteria, students’ attitude & effort, quality of work and the ability to understand the concepts/assignments. Students should be able to work in the studio environment independently, as well as in the group discussions and class sessions. Students should show improvement, willingness to learn and respond sincerely to class instruction, critique, artistic creativity, peer support, originality, presentation and class assignments are all equally important.

Grading Scale: To pass the class, students will fulfill the specific outcomes and other course expectations as listed in this syllabus. 40% Participation/ Attendance (Includes: critiques, group discussions, class participation, effort) 60% “Studio” (Includes: homework, sketchbook assignments 5%, graded projects 25%, Independent research 10%, final presentation/paper 20%)
A= excellent, A-= below excellent, B+= above average, B= average, B-= below average, C= passing, D=poor, F= fail

Attendance: Please be aware of my attendance policy! Students are expected to attend classes, arrive on time and be prepared to work. Students are allowed a total of 3 un-excused absences. After 3 absences, your grade will be lowered a letter grade for each day missed. Since much of the learning and course work is done during class time, attendance and class participation are mandatory for a passing grade. If you are not in class, you are not learning. If you are seriously ill or have an emergency, contact me and let me know your situation. This will help you to not fall behind, as well as be prepared for the next class and assignment.
* Missed work must be made up on your own time. Any missed assignments are your responsibility to turn into me the following class or upon your return. If you do not, you will receive a zero for the grade missed.

Note: Excessive tardiness to class will also lower your final grade. Don't be late, it is rude and interrupts class.

Students with Disabilities and Learning Differences:
If you have a diagnosed disability or learning difference and you need Academic accommodations please inform me at the beginning of the semester and contact the Disabilities Resource Center (SUB I room 234, 703-993-2474). You must provide me with a faculty contact sheet from that office outlining the accommodations needed for your disability or learning difference. All academic accommodations must be arranged in advance through the DRC.

Art Exhibitions:
Students will be required to attend art exhibits at George Mason University’s Fine Arts Gallery/ Building and Johnson Center Art gallery. This includes visiting artists, faculty and student exhibitions. I will sometimes ask for a typed paragraph on the exhibit and will announce which ones and the date due. Students are also required to visit D.C area museums, galleries, and exhibitions. (Assignments to be announced).

University and School of Art Policies
In accordance with George Mason University policy, turn off all beepers, cellular telephones and other wireless communication devices at the start of class. The instructor of the class will keep his/her cell phone active to assure receipt of any Mason Alerts in a timely fashion; or in the event that the instructor does not have a cell phone, he/she will designate one student to keep a cell phone active to receive such alerts.

Commitment to Diversity
This class will be conducted as an intentionally inclusive community that celebrates diversity and welcomes the participation in the life of the university of faculty, staff and students who reflect the diversity of our plural society. All may feel free to speak and to be heard without fear that the content of the opinions they express will bias the evaluation of their academic performance or hinder their opportunities for participation in class activities. In turn, all are expected to be respectful of each other without regard to race, class, linguistic background, religion, political beliefs, gender identity, sex, sexual orientation, ethnicity, age, veteran’s status, or physical ability.

Statement on Ethics in Teaching and Practicing Art and Design
As professionals responsible for the education of undergraduate and graduate art and design students, the faculty of the School of Art adheres to the ethical standards and practices incorporated in the professional Code of Ethics of our national accreditation organization, The National Association of Schools of Art and Design (NASAD).

Open Studio Hours
SOA teaching studios are open to students for extended periods of time mornings, evenings and weekends whenever classes are not in progress. Policies, procedures and schedules for studio use are established by the SOA studio faculty and are posted in the studios.

ArtsBus - Dates for Spring 2016
February 20
March 19
April 9

ArtsBus Credit
* Each student must have up to 5 AVT 300/Artsbus credits before graduation. For credit to appear on your transcript you must enroll in AVT 300. This also applies to anyone who intends to travel to New York independently, or do the DC Alternate Assignment.
* If you plan/need to go on multiple ArtsBus trips during a semester and need them towards your total requirement, you must enroll in multiple sections of AVT 300. Please go to the ArtsBus website: http://artsbus.gmu.edu "Student Information" for additional, very important information regarding ArtsBus policy.
* Non-AVT majors taking art classes do not need Artsbus credit but may need to go on the Artsbus for a class assignment. You can either sign up for AVT 300 or buy a ticket for the bus trip at the Center of the Arts. Alternate trips must be approved by the instructor of the course that is requiring an ArtsBus trip.

**Visual Voices Lecture Series Spring 2016**

Visual Voices is a year-long series of lectures by artists, art historians and others about contemporary art and art practice. Visual Voices lectures are held on Thursday evenings from 7:20-9:00 p.m. in Harris Theater: http://soa.gmu.edu/visualvoices/

Once the add and drop deadlines have passed, instructors do not have the authority to approve requests from students to add or drop/withdraw late. Requests for late adds (up until the last day of classes) must be made by the student in the SOA office (or the office of the department offering the course), and generally are only approved in the case of a documented university error (such as a problem with financial aid being processed), LATE ADD fee will apply. Requests for non-selective withdrawals and retroactive adds (adds after the last day of classes) must be approved by the academic dean of the college in which the student’s major is located. For AVT majors, that is the CVPA Office of Academic Affairs, Performing Arts Building A407.

**Students with Disabilities and Learning Differences**

If you have a diagnosed disability or learning difference and you need academic accommodations, please inform me at the beginning of the semester and contact the Disabilities Resource Center (SUB I room 234, 703-993-2474). You must provide me with a faculty contact sheet from that office outlining the accommodations needed for your disability or learning difference. All academic accommodations must be arranged in advance through the DRC.

**Official Communications via GMU E-Ma**
Mason uses electronic mail to provide official information to students. Examples include communications from course instructors, notices from the library, notices about academic standing, financial aid information, class materials, assignments, questions, and instructor feedback. Students are responsible for the content of university communication sent to their Mason e-mail account, and are required to activate that account and check it regularly.

**Attendance Policies**

Students are expected to attend the class periods of the courses for which they register. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor's grading policy, as stated in the course syllabus.

**Honor Code**

Students in this class are bound by the Honor Code, as stated in the George Mason University Catalog. The honor code requires that the work you do as an individual be the product of your own individual synthesis or integration of ideas. (This does not prohibit collaborative work when it is approved by your instructor.) As a faculty member, I have an obligation to refer the names of students who may have violated the Honor Code to the Student Honor Council, which treats such cases very seriously. No grade is important enough to justify cheating, for which there are serious consequences that will follow you for the rest of your life. If you feel unusual pressure about your grade in this or any other course, please talk to me or to a member of the GMU Counseling Center staff.

Using someone else's words or ideas without giving them credit is plagiarism, a very serious Honor Code offense. It is very important to understand how to prevent committing plagiarism when using material from a source. If you wish to quote verbatim, you must use the exact words and punctuation just as the passage appears in the original and must use quotation marks and page numbers in your citation. If you want to paraphrase or summarize ideas from a source, you must put the ideas into your own words, and you must cite the source, using the APA or MLA format. (For assistance with documentation, I recommend Diana Hacker, A Writer's Reference.) The exception to this rule is information termed general knowledge—information that is widely known and stated in a number of sources. Determining what is general knowledge can be complicated, so the wise course is, "When in doubt, cite."

Be especially careful when using the Internet for research. Not all Internet sources are equally reliable; some are just plain wrong. Also, since you can download text, it becomes very easy to inadvertently plagiarize. If you use an Internet source, you must cite the exact URL in your paper and include with it the last date that you successfully accessed the site.

**Writing Center**

Students who are in need of intensive help with grammar, structure or mechanics in their writing should make use of the services of Writing Center, located in Robinson A116 (703-993-1200). The services of the Writing Center are available by appointment, online and, occasionally, on a walk-in basis.

The Collaborative Learning Hub Located in Johnson Center 311 (703-993-3141), the lab offers in-person one-on-one support for the Adobe Creative Suite, Microsoft Office, Blackboard, and a variety of other software. Dual monitor PCs make the lab ideal for collaborating on group projects, Macs are also available; as well as a digital recording space, collaborative tables, and a SMART Board. Free workshops are also available (Adobe and Microsoft) through Training and Certification; visit ittraining.gmu.edu to see the schedule of workshops and to sign up.
