AVT 222:002 Drawing I
Syllabus

Course Description:

Drawing I will address the basic technical components of making a work of art through drawing. We will examine a variety of drawing media and methods. To aid us in the learning process, we will build a drawing vocabulary and examine a variety of drawing philosophies that will transcend this course and assist you with the entire experience of making any type of art.

Like almost anything, you will get better depending how much time you put into your drawing. I understand the demands of college life; none-the-less I want you, the student, to understand that this and any other studio art course will demand your commitment of effort and of time. Unlike most of the courses you will take in college, Drawing I (and other art classes) can be pushed as far as you want to push it. I want to reassure you that I want to make this course productive and fun. Please feel free to approach me or contact me at anytime during this course.

1. Use (and show competence in) Drawing 1 concepts and techniques to create compositions, including: line, shape, value, color, texture, and space.
2. Use (and show competence in) the elements of compositions, including: proportion/scale, rhythm, balance, unity/variety, and repetition/pattern.

3. Expand individual understanding of the conventions, traditions, and history of Drawing.

4. Demonstrate understanding of form and content in art through in-class activities, independent research, individual drawings/projects, homework assignments, and group discussions.

5. Actively engage in individual and group critiques, thereby gaining and providing feedback and stimulating peer discussion.

6. Demonstrate a strong work ethic outside of class evident through independent research, sketchbook activities, projects and homework assignments.

7. Use, understand, and combine various materials and media in finished compositions.

8. Continue to maintain a professional demeanor and good work habits in the studio.

**CLASS REQUIREMENTS:**

1. Solid work ethic and concentration in class.

2. Attendance.

3. Work outside of class.

4. Completion of assignments on time.

5. Consistent participation in class.

**GRADING POLICY:**

**Letter grades that will be assigned:**

- “A” work is considered outstanding within the context of the course. This includes actively participating in class every day, writing thorough, well-researched and thoughtful papers, and executing assignments on time with special attention to learned formal skills, content, craftsmanship, and presentation. An “A” letter grade will not be given if you have more than one unexplained absence from class.

- “B” work exceeds the basic requirements of the course, above average participation. A “B” letter grade will not be given if you have more than two absences from class.
- “C” work meets the basic requirements of each assignment. Completes work with uneven results. A “C” letter grade will not be given if you have more than three absences from class.
- “D” minimal effort. “F” no effort.
- + or - will be assigned to letter grades according to letter scale.

When questioning your grade, ask yourself these questions throughout the semester:

- Have I done the assignments, fulfilling the requirements of each?
- Do I participate in class discussions and critiques?
- Do I pursue learning outside of lecture/studio time?
- Is this the best I can do? Are my efforts outstanding?
- Is my work unique and creative?
- Have I been present, prompt, prepared and resourceful?

CLASS PARTICIPATION/ ATTENDANCE:

Class attendance is mandatory!!! Evaluation is strongly based on work done in class. If you are not in class, it is impossible to evaluate progress. More than three “unexcused” absences are problematic and will result in a half letter grade reduction there after.

The following are considered excused absences:

1. Family emergency
2. University established religious holiday
3. Illness with a dated doctor’s note
4. University sponsored events, documented

** If you are going to miss class for any reason, it is important that you contact me.

**If you miss or are late to a class, it is your responsibility to find out what you missed from one of your classmates. The work will have to be made up outside of class.

DON’T BE LATE, DON’T LEAVE EARLY, DON’T MISS CLASS!
• A student not coming to class within the first 15 minutes will be counted as late. Three lates are counted as one absence.
• Missing the first 15 minutes of class counts as an absence.
• Students are expected to remain in class for the entire period. Leaving before class is dismissed or leaving for long periods during class are also considered poor attendance and will result in an absence.
• Class will be dismissed with ample time provided for packing materials and cleaning up. Please do not prepare to depart before class is dismissed. It is disruptive and unfair to your classmates.

**Preparation:**
If you arrive without materials and are unable to work, you will be counted as absent for that day.

**Clean-up:**
Students are responsible for cleaning up after themselves so that the room is ready for the next class. At the end of the semester, please thoroughly clean out your locker/file. Do not leave anything behind.

**Critiques:**
We will hold periodic informal critiques after each project. The critiques are designed to help students improve their work and develop a vocabulary to discuss their own work as well as the work of their classmates. Participating in the critiques is mandatory.

**ASSIGNMENTS:**

**Sketchbooks:**

Students are required to purchase a sketchbook and sketchbook activities will be assigned throughout the semester. It should be brought to every class and used to explore creative ideas, practice techniques, problem solve, experiment with media, and take notes on relevant readings, lectures etc. I **strongly recommend that you work in your sketchbook on a daily basis.** Include anything and everything that relates to processes, techniques, readings, and ideas that arise from practicing and thinking about art making. Use the sketchbook for your own personal exploration of concepts and media – experiment, try new things, and make mistakes. Ultimately, your sketchbook provides a place to document visual as well as verbal development but most importantly as a place that allows ideas to grow.

*** Drawing 1 requires students to keep a journal in which they draw from observation 6 sketches per week in addition to their class and homework.

**Project Policies:**
Projects are independent drawings that are the equivalent of major tests. There will be three projects due this semester. (This does not include the Final.) I take these drawing very seriously and so should you. Projects are graded in four parts: process, concept, execution/presentation and professor evaluation. Projects are finished drawings and need to be presented the way you want them to be shown. I want projects to reflect the interests/likes of you the artist. I will require a limited set of requirements, but subject matter is up to the artist. Again, if you have a question anywhere in the Project process, please ask me questions in class or via email.

Grading for Projects:

Grades for projects will be evaluated in four parts: process, concept, and execution/presentation and professor’s critique. By breaking up the grade into sections, hopefully the pressure to make mistakes will be lessened. Not every drawing is going to be successful. Often it is the mistakes that provide the most beneficial lessons in making a work of art.

Below is the explanation of all four grading criteria:

Process (1-25 points): Drawings are evaluated with consideration for one's reflection (including visual and oral presentation) on the drawing methods and ideas through sketching, preliminary studies and material trials and final presentation of a work.

Concept (1-25 points): The exploration of drawing, spatial concepts and imagination includes the content and/or ideas important to the problem. During the formation of ideas for a composition - how did the ideas develop and how were alternatives explored along the way - their meaning and purpose to the drawing (project) at hand and final presentation.

Execution/Presentation (1-25 points): The execution of materials (and tools) employed during the development of a project: This includes how materials and tools are utilized in a creative and exploratory fashion leading to the final crafting of a work for presentation. The verbal presentation of one's work includes awareness of the project goals and the drawing elements, vocabulary, and the principles of their application. It also includes a broader view of the application of the problem to various art and design precedents, history of art, the environment (natural and man-made), and society. Participation in critiques of fellow students' presentations with objective, rational and purposeful commentary, advice and constructive criticism is an important part of class participation.

Professor Critique (1-25 points): This is where I evaluate your project. I am constantly watching your artistic progress. I grade everyone individually.

Total: (1-100 points): Points earned per criteria out of 100 points.

Submission Policies

All work is due at the beginning of class, on time and presented the way you want the work to be shown.
Drawing projects submitted beyond the due date/time will be automatically reduced one letter grade for each class period late beyond the due date. Work, that is not ready for presentation (before the beginning of class), will be graded accordingly. Approval for a late project must be documented in an acceptable written form such as a letter from a doctor, lawyer, police or psychiatrist and must be verifiable.

**Project Dates**

**Project 1:** (Due: 2-14-19)

**Project 2:** (Due: 3-7-19)

**Project 3:** (Due: 3-28-19)

**Project 4:** (Due: 4-11-19)

**Final:** (Due 5-2-19)

**Homework Evaluation/Grade:**

Homework will consist of light drawing, reading/viewing provided material, image collecting, and written responses. *If you miss a class, you are responsible for any topic or work missed. I will be checking homework every Wednesday. It is the responsibility of you the student to make sure that your homework is checked for credit.*

Homework will be evaluated in a point system ranging from 0-4 points.

0 points= No credit.
1 point= You did it.
2 points= You did it with expected effort
3 points= Wow! Great job!
4 points= Extra WOW and extra bonus point.

Homework grade is the percentage of points earned from the total of 30 points, which is 3 X’s the 10 times I check it. If you plan to miss a Wednesday, you can hand it in early, send me an image, or receive a lower value for homework effort.
Reading Assignments and Materials:

Reading assignments and other teaching material I will provide. I will make specific arrangements to electronically get you that week’s materials. There are multiple ways to address a drawing and/or a work of art. My goal of supplying you with PDF, video, links, etc., is to best support your individual process in this course and cut down the amount of lecture time in the studio so that we can concentrate on drawing. This is a huge undertaking on my part, but it supports my artistic philosophy that the answer lays within the individual. If you need something explained beyond the material provided or from my class explanation, then please talk or contact me.

Suggested Textbook, “Drawing Essentials”, Deborah Rockman. In an effort to lower the costs of this course, I highly recommend that you purchase this text from Amazon.com or some other discount book website. A brand new copy of this text costs $26.68. It addresses all of your drawing concerns.

This class fulfills a Mason Core requirement for Arts.

Mason courses in the film making, visual and performing arts stress generative, inquiry based learning through direct aesthetic and creative experience in the studio environment. Art history courses address the intrinsic relationship of personal and cultural creativity, and the manifestation of aesthetics, visual culture and visual narrative within historical contexts.

Arts goal:
Courses aim to achieve a majority of the following learning outcomes: students will be able to identify and analyze the formal elements of a particular art form using vocabulary appropriate to that form; demonstrate an understanding of the relationship between artistic technique and the expression of a work’s underlying concept; analyze cultural productions using standards appropriate to the form and cultural context; analyze and interpret material or performance culture in its social, historical, and personal contexts; and engage in the artistic process, including conception, creation, and ongoing critical analysis.

University and School of Art Policies
In accordance with George Mason University policy, turn off all beepers, cellular telephones and other wireless communication devices at the start of class. The instructor of the class will keep his/her cell phone active to assure receipt of any Mason Alerts in a timely fashion; or in the event that the instructor does not have a cell phone, he/she will designate one student to keep a cell phone active to receive such alerts.

Commitment to Diversity
This class will be conducted as an intentionally inclusive community that celebrates diversity and welcomes the participation in the life of the university of faculty, staff and students who reflect the diversity of our plural society. All may feel free to speak and to be heard without fear that the content of the opinions they express will bias the evaluation of their academic performance or hinder their opportunities for participation in class activities. In turn, all are expected to be respectful of each other without regard to race, class, linguistic background, religion, political beliefs, gender identity, sex, sexual orientation, ethnicity, age, veteran’s status, or physical ability.
Statement on Ethics in Teaching and Practicing Art and Design
As professionals responsible for the education of undergraduate and graduate art and design students, the faculty of the School of Art adheres to the ethical standards and practices incorporated in the professional Code of Ethics of our national accreditation organization, The National Association of Schools of Art and Design (NASAD).

Open Studio Hours
SOA teaching studios are open to students for extended periods of time mornings, evenings and weekends whenever classes are not in progress. Policies, procedures and schedules for studio use are established by the SOA studio faculty and are posted in the studios.

ArtsBus Credit
* Each student must have up to 5 AVT 300/Artsbus credits before graduation. For credit to appear on your transcript you must enroll in AVT 300. This also applies to anyone who intends to travel to New York independently, or do the DC Alternate Assignment.
* If you plan/need to go on multiple Artsbus trips during a semester and need them towards your total requirement, you must enroll in multiple sections of AVT 300. Please go to the Artsbus website: http://artsbus.gmu.edu "Student Information" for additional, very important information regarding Artsbus policy.
* Non-AVT majors taking art classes do not need Artsbus credit BUT may need to go on the Artsbus for a class assignment. You can either sign up for AVT 300 or buy a ticket for the bus trip at the Center of the Arts. Alternate trips must be approved by the instructor of the course that is requiring an Artsbus trip.

Once the add and drop deadlines have passed, instructors do not have the authority to approve requests from students to add or drop/withdraw late. Requests for late adds (up until the last day of classes) must be made by the student in the SoA office (or the office of the department offering the course), and generally are only approved in the case of a documented university error (such as a problem with financial aid being processed), LATE ADD fee will apply. Requests for non-selective withdrawals and retroactive adds (adds after the last day of classes) must be approved by the academic dean of the college in which the student’s major
is located. For AVT majors, that is the CVPA Office of Academic Affairs, Performing Arts Building A407.

**Students with Disabilities and Learning Differences**

If you have a diagnosed disability or learning difference and you need academic accommodations, please inform me at the beginning of the semester and contact the Disabilities Resource Center (SUB I room 234, 703-993-2474). You must provide me with a faculty contact sheet from that office outlining the accommodations needed for your disability or learning difference. All academic accommodations must be arranged in advance through the DRC.

**Official Communications via GMU E-Mail**

Mason uses electronic mail to provide official information to students. Examples include communications from course instructors, notices from the library, notices about academic standing, financial aid information, class materials, assignments, questions, and instructor feedback. Students are responsible for the content of university communication sent to their Mason e-mail account, and are required to activate that account and check it regularly.

**Attendance Policies**

Students are expected to attend the class periods of the courses for which they register. In-class participation is important not only to the individual student, but also to the class as a whole. Because class participation may be a factor in grading, instructors may use absence, tardiness, or early departure as de facto evidence of nonparticipation. Students who miss an exam with an acceptable excuse may be penalized according to the individual instructor's grading policy, as stated in the course syllabus.

**Honor Code**

Students in this class are bound by the Honor Code, as stated in the George Mason University Catalog. The honor code requires that the work you do as an individual be the product of your own individual synthesis or integration of ideas. (This does not prohibit collaborative work when it is approved by your instructor.) As a faculty member, I have an obligation to refer the names of students who may have violated the Honor Code to the Student Honor Council, which treats such cases very seriously. No grade is important enough to justify cheating, for which there are serious consequences that will follow you for the rest of your life. If you feel unusual pressure about your grade in this or any other course, please talk to me or to a member of the GMU Counseling Center staff.
Using someone else’s words or ideas without giving them credit is plagiarism, a very serious Honor Code offense. It is very important to understand how to prevent committing plagiarism when using material from a source. If you wish to quote verbatim, you must use the exact words and punctuation just as the passage appears in the original and must use quotation marks and page numbers in your citation. If you want to paraphrase or summarize ideas from a source, you must put the ideas into your own words, and you must cite the source, using the APA or MLA format. (For assistance with documentation, I recommend Diana Hacker, A Writer’s Reference.) The exception to this rule is information termed general knowledge—information that is widely known and stated in a number of sources. Determining what is general knowledge can be complicated, so the wise course is, “When in doubt, cite.”

Be especially careful when using the Internet for research. Not all Internet sources are equally reliable; some are just plain wrong. Also, since you can download text, it becomes very easy to inadvertently plagiarize. If you use an Internet source, you must cite the exact URL in your paper and include with it the last date that you successfully accessed the site.

Writing Center

Students who are in need of intensive help with grammar, structure or mechanics in their writing should make use of the services of Writing Center, located in Robinson A116 (703-993-1200). The services of the Writing Center are available by appointment, online and, occasionally, on a walk-in basis.

The Collaborative Learning Hub Located in Johnson Center 311 (703-993-3141), the lab offers in-person one-on-one support for the Adobe Creative Suite, Microsoft Office, Blackboard, and a variety of other software. Dual monitor PCs make the lab ideal for collaborating on group projects, Macs are also available; as well as a digital recording space, collaborative tables, and a SMART Board. Free workshops are also available (Adobe and Microsoft) through Training and Certification; visit ittraining.gmu.edu to see the schedule of workshops and to sign up
